Overview

3M Respirator Unvalved FFP1 Classification White with Yellow Straps (Pack of 10)

The 3M 8310 Respirator protects against low levels of dusts and water and oil based mists found in a wide variety of industrial applications and other work situations requiring FFP1 protection.

Braided Headbands: Materials have been selected for extra comfort and durability, Colour-coded headbands offer easy protection level identification - colour coded yellow: FFP1 as per EN 149:2001+A1:2009.

M-Noseclip: The nose clip is quick and easy for wearers to mould around the nose offering greater comfort.

Robust Outer Shell: The shell construction offers users added durability.

High Performance Filter Material: 3M Advanced Electret filter material helps wearers to breathe easily through the respirator for more comfortable protection.

'Cushion-Fit' Lining: The super-soft, cushioned inner lining helps workers stay comfortable.

Soft Waffle Edge: The flexible, textured edge offers a comfortable and secure fit.
