Overview

AF Sprayduster (125ml) Spray

The AF Invertible sprayduster will solve your problems of hard to tackle dust and debris.

This non-flammable sprayduster is ideal for use with keyboards, computers, printers and much more.

Includes an actuator so that the user can control the power of the blast, additionally containing an extension tube to ensure that you can clean the inaccessible areas.

Can be used at an angle for the delicate areas of optical and electrical equipment.

Liquid contents may cause frostbite if sprayed directly onto skin.

Excellent for use on various hard to reach areas for ultimate dust free equipment and surfaces.

Fully compliant with changing F-gas regulations as of 1/1/18.

- 100% ozone friendly
- Non-flammable
- Actuator allows strength of blast to be controlled
- Extension tube for reaching confined areas
- Ideal for use on keyboards, printers, fax machines and computers
- Can be used at any angle - ideal for cleaning delicate electrical and optical equipment
- Static created by electronic equipment guarantees a huge build up of dust and dirt
- Hours spent over your workstation and keyboard also ensures a good mix of body fat, nasal droppings, dead skin cells, not to mention hair, eyelashes and food
- Removes visible and invisible nasties from those hard to reach and inaccessible places
- Extension tube for reaching confined areas
- 125ml Can
