Operating System : Apple iOS 8
Phone Performance : Talk Time: 1440 minutes (max.) ,
Standby Time: 384 hours (max.)
Product Family : iPhone 6 Plus
Product Type : Mobile Phone
Touchscreen : Yes
Video Playback Performance : 14 Hours

Pack Quantity 1
Price : £397.96

Overview

Apple iPhone 6 Plus CPO 128GB Silver

iPhone 6 isn't simply bigger - it's better in every way.

Larger, yet dramatically thinner.

More powerful, but remarkably power efficient.

With a smooth metal surface that seamlessly meets the new Retina HD display.

It's one continuous form where hardware and software function in perfect unison, creating a new generation of iPhone that's better by any measure.

Developing an iPhone with a larger, more advanced display meant pushing the edge of design.

From the seamless transition of glass and metal to the streamlined profile, every detail was carefully considered to enhance your experience.

So while its display is larger, iPhone 6 feels just right.

It's one thing to make a bigger display.

It's something else entirely to make a bigger Multi-Touch display with brilliant colours and higher contrast at even wider viewing angles.

But that's exactly what we did with the new Retina HD display.

Built on 64-bit desktop-class architecture, the new A8 chip delivers more power, even while driving a larger display.

The M8 motion coprocessor efficiently gathers data from advanced sensors and a new barometer.

And with increased battery life, iPhone 6 lets you do more, for longer than ever.

More people take more photos with iPhone than with any other camera.

And now the iSight camera has a new sensor with Focus Pixels and new video features, like 1080p HD at 60 fps, slow motion at 240 fps, and time-lapse video mode.

So you'll have more reasons to capture more moments on video, too.

iPhone 6 has faster LTE download speeds, and it supports more LTE bands than any other smartphone so you can roam in more places.

And when connected to Wi-Fi, you'll get up to 3x faster speeds.

The breakthrough Touch ID technology lets you securely access your iPhone with the perfect password: your fingerprint.

You can also use it to approve purchases from iTunes, iBooks, and the App Store without having to enter your password.

- 128GB Storage
- 5.5 inch (diagonal) LED-backlit widescreen Multi-Touch display with IPS technology
- 8 Megapixel iSight camera and 1.2 Megapixel FaceTime Camera
- Fingerprint identity sensor built into the Home button
- A8 chip with 64-bit architecture and M8 motion coprocessor
- 802.11a/b/g/n/ac Wi-Fi and Bluetooth 4.0 wireless technology
- 4G WWAN
- Retina HD display
- iOS 8: The world's most advanced mobile operating system and the easiest to use
- Apple Pay: Pay with your iPhone using Touch ID in stores and in apps
- iCloud: Stores your music, photos, apps, mail, contacts, calendars, documents and wirelessly pushes them to all your devices, it's automatic
- Siri is the intelligent assistant that helps you get things done, just by asking
- FaceTime lets you hear a voice and see the face that goes with it - iPhone to iPhone, iPad 2, iPod touch or Mac over Wi-Fi
- Maps: Incredibly sharp graphics and text, even when you zoom in
- AirPlay wirelessly streams content from your iPhone to Apple TV, so you can watch it on the big screen
- Optical image stabilization
- Colour: Silver
