Overview

Evolution Value (A4) Paper (5 Packs of 500 Sheets) 80gsm (White)

Evolution Value is produced from 75% recovered fibre.

The paper has high opacity and good sheet formation in addition to maximum ageing resistance.

Evolution Value has excellent runnability on all types of machines and is ideal for laser and inkjet volume printing.

Evolution Value is manufactured using bio-energy and the local sourcing of materials, chlorine bleaching is not used in the production process, high whiteness is achieved thanks to a special converting process for the recycled fibre.

The mill utilises its own in-house de-inking process and is closed loop; there is no landfill.
