

UniBond AERO 360° PURE Moisture Absorber Device HK30920

HK30920
1554723

Distributor Numbers : Vow Code: HK30920
EC Commodity Code : 35061000
Industry Standard Product Classification : 61990
Product Type : Dehumidifier

Pack Quantity 1
Price : £10.25

Overview

UniBond AERO 360° PURE Moisture Absorber Device

An optimal system based on 360° air circulation.

Based on the physical principle that the greater the surface area between the refill Tab and the air, the higher the absorption capacity of the Tab.

The new system, AERO 360° PURE provides improved moisture absorption and up to 70% neutralisation of bad odours.

It works to improve air quality more rapidly.

- 2in1 technology - absorbs moisture and neutralises odours
- Includes anti-spill technology to avoid leaks and spills
- Aerodynamic device + 360 air circulation = 40% more efficient
