Overview

UniBond Humidity Absorber Small Refill Tablets Pack of 2 Tablets

A typical family produces on average 12 litres of water a day through household activities like cooking, taking a shower or bath, washing and even turning the central heating on.

By absorbing excess moisture from the air, UniBond moisture absorbers protects your property from damage and improves your comfort.

In addition it helps prevent the development of mould and dust mites, which could cause allergies.

- Only use with the UniBond Humidity Absorber (Small Device)
- Each Power Tab lasts 6 - 8 weeks
- 300g
- Packed 2
