Price : £6.01

Overview

Integral Sec360USB 8GB INFD8GB360SECV2

Integral Black Secure 360 Secure Lock II Encrypted USB Drive 8GB INFD8GB360SECV2 (Pack of 1).

Protect your confidential data with the Integral Secure 360 USB Drive.

It comes with Secure Lock II software for PCs and Macs that locks out access to unauthorised users with 256-bit AES encryption.

It's easy to use - just drag and drop your files as normal to encrypt on the fly.

It'll prevent unauthorised access to your files and even wipe the drive after 10 failed access attempts.

The Secure 360 features a 360-degree rotating cap to protect the USB connector, and supports USB 2.0 for Hi-Speed data transfers.

Secure USB flash drive with 256-bit AES encryption.

Secure Lock II software keeps your private data safe.

Software erases drive after 10 failed access attempts.

Plug-and-play encryption for PCs and Macs.

360-degree rotating cap protects connector.

USB 2.0 connection for Hi-Speed data transfer.

Capacity: 8GB.

- The 360 Flash Drive features a capless design which allows the USB socket to rotate 360 degrees inside the casing, providing easy access to your data
- Readyboost compatible for enhanced Windows Vista and 7 performance
- Optional Unique ID - The USB Flash Drive can be personalised with a designated company identifying name or number, which will allow a network administrator to block access to unrecognised USBs for security purposes, whilst allowing the drive to function as the 'official' company drive
- Compatible with Windows ME/2000/XP/Vista/7 and Mac OS 9 and later, Linux v2.4.0 and above
