Overview

Kingston DataTraveler Locker+ G3 (8GB) USB 2.0 Flash Drive (Silver) KIN21835

Put a lock on your personal data with Kingston's DataTraveler Locker + G3.

It secures receipts, bank statements and other sensitive documents with hardware encryption and password protection for a double layer of data security.

The drive locks down and reformats after 10 failed login attempts, so users can rest assured that their data is safe even if the drive is lost or stolen.

Its USB 3.0 interface delivers fast speeds that are approximately eight times the speed of the previous generation, to secure files faster.

DataTraveler Locker + G3 is easy for anyone to setup and easy to use, with no application installation required; all the software and security needed is built in.

It works on both Windows systems and Macs so users can access files from multiple systems, without installing a program on every computer used.

It features a durable metal casing to protect the drive from drops, bumps and knocks plus its built-in key loop makes it convenient to take your data anywhere.

The cap fits on the back of the drive so it won't get lost.

DataTraveler Locker + G3 is covered by a five-year warranty, free technical support and legendary Kingston reliability.

- · Hardware encryption
- Superior password protection

- Easy to use
- Versatile -works interchangeably between Mac OS X and Windows systems
- Secure drive locks down and reformats after 10 invalid login attempts
