### Overview

---

#### Safescan 20 Permanent UV Security Marker Pen (Single)

This permanent UV marker will write on just about any surface and is ideal for discretely marking any valuable property including laptops, TV's, computers and mobile phones.

The ink used is almost invisible once applied and only becomes visible under UV light.

The permanent ink is long lasting.

For maximum effect and durability, mark your property in a discrete area, such as the inside of a battery cover or on the back of a TV.

Works on most surfaces, including metal, plastic, glass and paper.

- Ideal for labelling valuables such as TV's, mobile phones and laptops
- Permanent UV ink
- Ink is visible only under UV light
- Works on most surfaces
- Extra fine tip for easy writing
- Non-toxic ink
