Overview

Verbatim DVD-R Recordable Disk Write-once Inkjet Printable Cased 16x 120min 4.7GB (Pack of 10)

Verbatim's DVD-R for General was designed to meet the needs of users who demand a higher capacity.

Therefore designed primarily for businesses and consumers for data archiving and one-time video recording.

Professionals working with large image files, for example, will immediately discover advantages such as the ability to have an entire picture library on one disc, while sharing large multimedia files will no longer be a problem.

Home-users will be able to edit, organise, share and preserve their memories on one disc in the form of photos, video clips and music.

Verbatim's DVD-R for Authoring media was designed to meet the needs of professional content developers and software producers.

Ideal for video, audio, multimedia imaging, archiving data and more.

These discs can be read by all DVD drives but can only be written to by Pioneer's DVR-S201 drive.
