

LTE-Advanced Mobile Wi-Fi Router TP07175

TP07175
M7350

Dimensions : 10.6cm (W) x 6.6cm (D) x 1.6cm (H)
Distributor Numbers : Vow Code: TP07175
Form Factor : Mobile Router
Model Name : M7350
Number of Slots : 2
Product Type : Wireless Network Router
Router Type : Wireless
USB Port(s) : 1 x USB
Wireless LAN Standards : IEEE 802.11 a b g n

Pack Quantity 1
Price : £73.25

Overview

LTE-Advanced Mobile Wi-Fi Router TP07175

TP-Link's M7350 is at the forefront of wireless 4G sharing.

Just insert a 4G SIM card into the device to instantly establish a selectable dual band Wi-Fi hotspot.

With up to 150Mbps download and 50Mbps upload speeds, the M7350 is able to provide 4G wireless sharing to up to 15 users simultaneously.

Its pocket-sized design and powerful 2550 mAh internal battery make it an ideal travel companion, allowing users to work or play for 10 hours.

With its innovative TFT display, users can have a much more intuitive view of the device's operating status, such as signal strength, network type (4G/3G/2G), Wi-Fi status, messages, Internet, traffic statistics and battery life.

Supporting the latest generation 4G LTE network, the M7350 can reach up to 150Mbps download speeds, to enjoy HD movies without interruption, download files in seconds, and hold a video chat without dropouts.

Plug and play, just insert a 4G SIM card to create your reliable personal 300Mbps dual-band Wi-Fi hotspot on the move.

Instantly share 4G/3G connectivity with up to 15 Wi-Fi enabled devices - Tablets, mobile phones, laptops, game consoles and more.

The M7350 features a compact, elegant design very suitable for travel, business trips, outdoor activities or wherever you may be.

With its powerful 2550 mAh battery, the M7350 is able to operate for 10 hours at full capacity.

For added flexibility, the device can be recharged via a micro USB cable connected to a laptop, portable charger or using its included adapter for endless hours of 4G sharing.

The intuitive screen display makes it easy to stay within your data budget and avoids going over the monthly data cap.

With the menu button you can quickly change network type, data roaming and frequency band, view password and network name - directly on the device.

You can easily share photos, music, videos and more wirelessly across your network from a micro SD card through the micro SD Storage Slot - providing storage of up to 32GB.

- Supports 4G/3G/2G network
