

AC750 Dual Band ADSL2 Router Archer D2 TP08007

TP08007
Archer D2

LAN Ports : 3 port(s) x RJ-45 10/100/1000Mbps Ethernet
Dimensions : 22.9cm (W) x 16.0cm (D) x 3.7cm (H)
Industry Standard Product Classification : 40260
Router Type : ADSL2+
Distributor Numbers : Vow Code: TP08007
WAN Ports : 1 port(s) x RJ-45 10/100/1000Mbps
Form Factor : Wireless Device - Desktop
Wireless LAN Standards : IEEE 802.11 a b g n ac
Product Type : Network Router
USB Port(s) : 1 x USB 2.0

Pack Quantity 1
Price : £60.88

Overview

TP-LINK AC750 433Mbps (5GHz) 300Mbps (2.4GHz) Dual-Band Wireless Gigabit ADSL2+ Modem Router (Black)

TP-Link's Archer D2 AC750 Wireless Dual Band Gigabit ADSL2+ Modem Router is a combined wired/wireless network connection device with integrated wireless router and ADSL modem, reducing hassle of configuration and saving space.

Featuring a variety of features and rich functionality, Archer D2 is the perfect hub of your home or business network.

TP-Link's Archer D2 comes with the next generation Wi-Fi standard - 802.11ac, backward compatible with 802.11n and 3 times faster than wireless N speeds.

With higher power efficiency and robust security, 802.11ac is the perfect way to accelerate a home multimedia network and solve congestion that multiple devices may cause.

With 433Mbps wireless speeds over the crystal clear 5GHz band and 300Mbps over the 2.4GHz band, Archer D2 offers you the flexibility of two dedicated networks and ensures amazing wireless performance.

Simple tasks such as sending e-mails or web browsing can be handled by the 2.4GHz band while bandwidth intensive tasks like online gaming or HD video streaming can be processed by the 5GHz band - all at the same time.

Featuring three detachable external antennas and high power amplifiers, Archer D2 is able to boost Wi-Fi coverage throughout your home.

Advanced Beamforming technology enables Archer D2 to focus WiFi signal to connected devices, delivering a more targeted and highly efficient wireless connection.

With one Gigabit LAN/WAN port and 3 Gigabit LAN ports, the Archer D2 is the ideal choice for bandwidth heavy users that rely on speedy, reliable connections for bandwidth intensive work or entertainment such as lag-free conference calls, HD video streaming or online gaming.

Using the Archer D2's multi-functional USB 2.0 ports, you can share a printer with multiple computers and devices on your network and can also share files & media at home or via the FTP server while away from home.

- Supports 802.11ac - The next generation of Wi-Fi, compatible with 802.11n
- Simultaneous 2.4GHz 300Mbps and 5GHz 433Mbps connections for 750Mbps of total available bandwidth
- 3 dual band detachable external antennas and high power amplifiers provide stable signals and optimal wireless coverage
- Beamforming Technology brings a more targeted and highly efficient Wi-Fi connection
- Share a printer locally and files & media with networked devices or remotely via FTP server
- Ethernet WAN (EWAN) offers another broadband connectivity option for connecting VDSL, cable or fibre modems
- Guest Network Access provides secure Wi-Fi access for guests sharing your home or office network
- Parental Controls allow parents or administrators to establish restricted access policies for children or staff
- IP-based Bandwidth Control makes it easier for you to manage the bandwidth of devices connected to the router
- SPI and NAT firewall protects end-user devices from potential attacks from the Internet
- Wi-Fi On/Off Button allows users to turn their wireless radio on or off
- Built-in intelligent auto-detection automatically figures out which connection type to use in a flash
- IPv6 supported, meeting the demands for the next generation of the Internet
