5 Port Desktop Ethernet Switch TP02133

TP02133
TL-SG105

Dimensions : 9.98cm (W) x 9.8cm (D) x 2.5cm (H)
Distributor Numbers : Vow Code: TP02133
Fixed Ports : 5 port(s) x RJ-45 , 10/100/1000Mbps ,
(Auto-MDI/MDIX)
Form Factor : Desktop Unit
In The Box : 5-Port 10/100/1000Mbps Desktop Switch •
Power Adaptor • User Guide
Industry Standard Product Classification : 40201
Model Name : TL-SG105
Product Type : Network Switch

Pack Quantity 1
Price : £16.09

Overview

5 Port Desktop Ethernet Switch TP02133

The TP-Link 5-Port 10/100/1000Mbps Desktop Switch provides you an easy way to make the transition to Gigabit Ethernet.

Increase the speed of your network server and backbone connections, or make Gigabit to the desktop a reality.

Moreover, TL-SG105 adopts lower power consumption design.

With the innovative energy-efficient technology, the TL-SG105 can save up to 65% of the power consumption, making it an eco-friendly solution for your home or office network.

Featured with 5 10/100/1000Mbps ports, TL-SG105 greatly expands your network capacity, enabling instant large files transferring.

So, power users in the home, office, workgroup, or creative production environment can now move large, bandwidth-intensive files faster.

Transfer graphics, CGI, CAD, or multimedia files across the network instantly.

You now have the choice to go green when upgrading to a gigabit network! This new generation TL-SG105 5-Port 10/100/1000Mbps Desktop Switch features the latest innovative energy-efficient technologies that can greatly expand your network capacity with much less power.

It automatically adjusts power consumption according to the link status and cable length to limit the carbon footprint of your network.

- Up to 2000Mbps full duplex bandwidth for high-speed data processing
- 5 x 10/100/1000Mbps Auto-Negotiation RJ45 ports supporting Auto-MDI/MDIX
- Innovative energy-efficient technology saves power up to 65%
- Supports IEEE 802.3x flow control for Full Duplex mode and back pressure for Half Duplex mode

- Steel design, desktop or wall-mounting design
- Supports QoS (IEEE 802.1p) and IGMP snooping function
- Non-blocking switching architecture that forwards and filters packets at full wire-speed for maximum throughput
- 9K Jumbo frame improves performance of large data transfers
- Auto-MDI/MDIX eliminates the need for crossover cables
- Supports MAC address auto-learning and auto-aging
- Auto-negotiation ports provide smart integration between 10Mbps, 100Mbps and 1000Mbps hardware
- Fanless design ensures quiet operation
- Plug and Play design simplifies installation
