Overview

Kensington CV2000V USB-C to VGA Full HD Video Adaptor

A professional-level video adaptor that allows you to extend your display to 1080p Full HD from your USB-C port.

The adaptor is ideal for desktop productivity expansion, or connecting to the video equipment in a conference room for a presentation.

The adaptor offers extend mode or mirror mode and is also compatible with Thunderbolt 3 ports.

- Full 1080p HD resolution from your laptop to a monitor, TV or projector (host device must support DisplayPort Alt Mode over USB-C)
- Extend or mirror modes
- Thunderbolt 3 compatible
- Plug & Play installation
- Premium construction so your laptop and display remain safe
- Future-proof online firmware upgrade available for Windows updates
- Compatible with Windows 10, 8.1; Mac OS X 10.10 or later; Chrome OS
