Price : £111.20

Overview

Brother P-touch PT-P750W PC Connectable Compact Label Maker (Wireless)

The PT-P750W is a powerful, yet easy-to-use label maker with plenty of wireless and wired connectivity options.

It is easy for multiple users, even on different computers and mobile devices, to create and print virtually any durable, colourful, professional label they can imagine.

With a built-in wireless 802.11b/g/n interface, the PT-P750W is the ideal choice for sharing a label printer amongst multiple users.

Pre-loaded labelling software lets you plug into nearly any PC or Mac computer via its USB interface and almost immediately begin designing and printing labels, with the convenience of using a monitor and full-sized keyboard.

PC and Mac users can also greatly expand the capabilities of the PT-P750W by installing the robust P-touch Editor Label Design Software, which is available as a free download.

Create and print labels with ease right from compatible Apple iOS or Android mobile devices using the free Brother iPrint&Labelapp.

The PT-P750W is also NFC compatible, so you can touch to connect to quickly establish contact with most NFC-capable devices.

Though it's great for individual label printing, the PT-750W is particularly well-suited to multi-label creation jobs thanks to its fast print speeds, repeat printing capability, and automatic half or full tape cutter.

The versatile PT-750W gives you several powering options as well.

Use the included AC cable or 6 AA batteries (sold separately) to power the unit for use at a desk, or make it truly portable by running it on a rechargeable Li-ion battery.

- Flexible connectivity - Provides built-in 802.11b/g/n interface to share with others on your wireless network, or connect locally to a single user via its USB interface
- Print customized labels using fonts and graphics from your PC or Mac
- High print resolution supports crisp graphic, barcode, and logo printing
- Super-fast print speeds and automatic half or full cutting enables efficient multi-label printing
- NFC connectivity lets you touch to connect to establish contact with most NFC-capable mobile devices
- Print labels from your mobile device using Brother iPrint&Labelapp download
- Powered by included AC power adaptor. Optional rechargeable Li-ion battery available for completely mobile printing
- Vast assortment of templates can be downloaded from the Brother Cloud to help save time in creating labels
- Easy to integrate and manage on a network using Brother's network management tools and free software development kits. SDKs are available for Windows, iOS and Android systems
- Includes 0.94 (24mm) TZe starter tape (4m), AC adaptor and USB cable
