Overview

Dell Latitude 3480 i3 Core 4GB 500GB HDD

An easily managed 14-inch laptop with top security features critical for small and growing businesses, all in a durable, reliable design.

Data security is key in protecting your business and employees.

Dell Data Protection is a suite of security software programs offered on each Latitude 3000 Series system.

Endpoint security, advanced user authentication and data encryption software all work cohesively to safeguard your data from threats and hacks.

Your Latitude 3480 comes TPM2.0 TCG certified and FIPS-140-2 certified, and uses hardware-based cryptography for the most secure communication.

Dell Client Command Suite comes with a set of automation tools that assists in device monitoring, deploying images, updating and more, to maximize your hardware and software investments and save time.

Your Latitude 14 features a durable, built-to-last chassis that has undergone extensive military-grade MIL-STD 810G testing to ensure your system can withstand real-world conditions.

The extended 180-degree hinge is smooth, flexible and durable so you can collaborate effectively.

At less than 24mm thin and weighing less than 1.8kg, your Latitude laptop is travel ready.

- First-class business protection

- Work securely, anywhere
- Reliable and manageable
