Overview

Hp Lto-5 Ultrm 3.0Tb Rw Data Cart C7975A HPC7975A

HP LTO-5 Ultrium media offers the best capacity/performance ratio of any tape technology, with terabyte-class capacity and performance.

It has almost double the capacity and offers faster performance compared to LTO-4 Ultrium, with built-in encryption capability and a Write Once Read Many (WORM) option - with no performance overhead.

It can write or read data at a blistering 1 TB/hour, storing, encrypting and protecting up to 3 TB on a single cartridge, making it the big hitter in large-scale, 24x7, mission-critical IT environments.

Standardizing on HP LTO-5 Ultrium delivers the capacity to meet shrinking backup windows, industry-standard, AES 256-bit encryption (IEEE1619.1), and interchangeable RW or WORM media, without extra space or IT resource overhead.
