Overview

Freecom (4TB) USB 3.0 3.5 inch.mHDD Desktop Hard Drive FRC56387

The Freecom mHDD desktop hard drive is the ideal companion in our digital age.

With an elegant yet robust design, the drive looks fabulous next to any notebook or computer, or even a TV set.

With a huge capacity of up to 8TB, you'll have all the room you need to backup and store all your important documents, photos and other files.

The drive is equipped with a USB 3.0 interface, ensuring ultra fast transfer speeds while also being fully compatible with older USB 2.0 ports.

It also has Nero Backup Essentials (Nero Backup Essentials only compatible with Windows operating systems) software loaded on the drive to help you automatically backup your files.

Exponentially more and more digital content is being generated and consumed every year, and this is the perfect storage device to allow you to keep all your precious files backed up and safe for the future.

Store all your spreadsheets, documents, presentations on one central location or make extra backups of all your important files.

The brushed aluminium casing of the Freecom mHDD desktop ensures that it is fully protected from bumps and mishaps, while also being resistant to scratches or fingerprints.

It is part of the expanding Freecom family of stylish metal external storage devices - mobile and desktop hard drives, SSDs and USB Flash Drives - to satisfy all requirements of your business or home by offering a full range of different features from ultra high speed or huge capacity to super slim and mobile to multiple connectivity options.

- Stylish desktop hard drive
- Connect to Mac or PC

- High quality, solid brushed aluminium enclosure
- USB 3.0 for ultra fast data transfer speed (up to 5Gbit/s)
- Quiet, thanks to its fanless design
- Free Nero Backup Essentials (Nero Backup Essentials only compatible with Windows operating systems) software with automatic backup, compression and security features
- Three year warranty
- Free helpdesk support
