Overview

Safexs Guardian XT (8GB) USB Flash Drive

Safexs Guardian XT meets regulatory compliance with built-in military grade AES256-bit software encryption, protecting your data and accessible on cross platforms, Safexs Guardian 3.0 is affordable and will meet companies requirements if they do not need to invest in a more expensive hardware based solution.

Feature rich and secure, protect your data from unauthorised access with Safexs Guardian.

Safexs Guardian XT is a CTWO Products innovation, designed in Sweden and developed within the EU.

- AES 256 bit in CBC-Mode
- Anti-tampering
- Available storage indicator
- Brute force protection
- Cross platform support
