Overview

Safexs Protector XT (64GB) USB Flash Drive

Safexs Protector XT is a data protection tool that comes in a small USB sized form factor, Safexs Protector is a Ctwo Products AB innovation which has been designed and developed within the EU, this secure memory stick is loaded with security features to protect against unauthorised access, Malware attacks and data loss, Safexs Protector is the first drive to have the new Password Rescue functionality built-in, allowing users to securely access the device in case of a lost password without the risk of losing data.

Safexs Protector XT has TRUE cross platform support and operates on Windows, Mac and Linux based machines at ease.

The small form factor, ease of use, superior strength and fast USB 3.0 speeds, makes Safexs Protector XT the perfect choice for organisations that are looking to protect their sensitive information.

- AES 256 bit in XTS-Mode
- Anti-tampering
- Auto-destruct
- Available storage indicator
- Brute force protection
- Cross platform support
