The stylish, streamlined and compact WF-3725DWF features a 6.8cm touchscreen.

This 4-in-1 printer produces top quality, laser-like prints thanks to Epson's most advanced printhead technology, PrecisionCore.

It's designed for business with double-sided printing, a 35 page automatic document feeder and 250 sheet paper tray.

It also supports advanced Scan-to functions including Scan-to: Email, Cloud, FTP and Network.

And with the software included it's easy to create searchable PDFs from your scanned documents.

Achieve professional, crisp and clear business documents that are water, smudge and highlighter resistant, with Epson's DURABrite Ultra Ink.

Offering great value, the inks are supplied individually, so you only ever have to replace the colour used.

Plus, with XL cartridges you can print up to three times more pages- that equates to 1,100 black and 950 colour pages.

From your home or office, there's the option to use Wi-Fi connectivity or Wi-Fi Direct for printing from compatible wireless devices without a Wi-Fi network.

You can also print via NFC with a simple tap of a compatible Android device on the printer.

And there's Epson's free mobile printing apps and solutions including Email print, which allows you to send items to print from almost anywhere in the world.
