Overview

Lexmark CS827de (A4) Colour Laser Printer 1024MB 4.3 inch Colour Touchscreen 57ppm 200,000 (MDC)
LEX64406

Professional colour features include ultra-sharp 4800 Colour Quality, PANTONE calibration and spot colour replacement for consistent colour accuracy, even with critical corporate identity elements.

A 1.33 GHz quad core processor with 1GB of standard memory (expandable to 3GB) gives the CS827de fast and powerful print capabilities.

Lexmark's Embedded Solutions Framework lets you run software solutions to meet the needs of your industry.

Several solutions are included, and more can be added.

Expand your output capabilities with standard input capacity of up to 650 pages (expandable to 4,500), an optional in-line staple finisher, and the broadest range of media weights possible--from tissue-thin paper to thick card stock.

The 10.9-cm colour touch screen features an ultra-smooth surface that can be activated by almost anything, including pens, fingertips or nails -without pressure or direct skin contact.

Save money, paper and energy with efficient power management, automatic ColorSaver toner use reduction, default duplex printing and low per-page carbon footprint.

- Quad core power CPU
- Professional colour with PANTONE calibration
- Embedded Solutions Framework support
- Advanced media handling
- Multi-touchscreen
