Overview

Lexmark CX727de (A4) Colour Laser Multifunction Printer (Print/Copy/Scan/Fax) 2048MB 7 inch Colour Touch Screen 47ppm 150,000 (MDC) LEX64408

The Lexmark CX727de delivers print speeds up to 47 pages per minute and scan speeds up to 56 sides or images per minute.

With built-in business solutions, maximum input capacity of up to 2,300 sheets, a recommended monthly print volume up to 20,000 pages, stunning PANTONE-calibrated colour and large e-Task touch screen, the CX727de provides production-level capabilities in a compact footprint.

Printing graphics-intensive colour files can be a challenge for any MFP.

However, with its powerful print controller (1.2 GHz quad-core processor, up to 4GB of memory and optional hard disk), the CX727de can easily power through complex documents.

Time to first colour page is as quick as 5.5 seconds.

Lexmark colour-matching tools and PANTONE calibration deliver rich, consistent colour printing so you can save time and money by producing your colour documents and prints in-house.

Extensive network security features and protocols protect your device, information and network from unauthorised access.

Keep your sensitive documents safe by enabling the Confidential Print feature, which requires entering a customised, unique PIN on the device's keypad before the document can be printed.

Print from mobile devices using an optional Wi-Fi adapter or Lexmark's free Mobile Print app.

The CX727de is AirPrint-certified and includes support for iOS, Android and Microsoft Windows Mobile printing.

It is also Mopria-certified and Google Cloud Print Ready.

The e-Task interface transforms the CX727de into your own personal gateway to use time-saving solutions, customised shortcuts and workflows.

Simply log in at the printer and you immediately see your own personalised 17.8 cm screen with all of the one-touch shortcuts you've created to scan, print, copy or send faxes, emails and other documents using your preferred settings.

Monitor jobs and supplies on the touch screen or from a remote location via the CX727de's web interface.

- Quad core power
- Exceptional colour
- Solutions capable
- Versatile media handling
- Advanced scanning
