Weight 0.9kg
Distributor Numbers : Vow Code: PIK85120
Form Factor : Jug
In The Box : 1 x Cafetiere
Pack Quantity : 1
Product Type : Cafetiere

Pack Quantity 1
Price : £67.78

Overview

Dualit Dual Filter Cafetiere

Dualit's elegant Cafetière is easy to use and due to its patented double filter, leaves you with a smoother cup of coffee.

The double walled insulation retains heat and the mirrored, cool touch, stainless steel finish and sleek, curved body ensures this is a cafetière that would add grace to any table.

The patented double filter features both a coarse mesh layer and fine mesh layer, so even the finest of grains are removed and sediment is reduced by up to 22% compared to traditional, single filter cafetières.

The cafetière's double walled insulation ensures your coffee or tea stays fresh and hot; at optimum brewing temperature (90-96°) for four minutes and remaining up to 18% hotter than in conventional, glass cafetières.

In true Dualit style the cafetiere is built to last; made from high-quality, durable stainless steel, it will not shatter and is tough enough to withstand the many bumps and knocks that years of use can bring.

- Double filter decreases sediment by up to 22%
- Double wall insulation keeps coffee hotter for longer
- Shatter-proof, high quality, stainless steel body
- Cool touch outer body
- Sleek, elegant design
- Bpa Free
- Dishwasher Safe
