Overview

Dualit Classic Capsule Machine 20 Bar Pressure

Experience a taste of luxury at home with the Dualit Classic Capsule Machine.

Compatible with both Dualit and Nespresso capsules, the Classic Capsule Machine gives you the choice of enjoying coffee or tea.

The perfect partner for the Classic Toaster and Classic Kettle, the Classic Capsule Machine embodies the same elegant styling, high quality, polished, stainless steel construction and smart features whilst being incredibly easy to use and compact enough for even the smallest kitchens.

We know that you value choice when it comes to buying tea and coffee and we don't want to restrict that.

That's why the new Dualit Classic Capsule Machine is compatible with Nespresso* capsules and our own range of Fine Tea and NX Coffee capsules.

Unique, dedicated tea function with temperature boost for a hotter cup of tea.

The best tasting, expertly brewed tea is poured straight into your cup within seconds; up to 90% faster than traditional brewing methods.

The Classic Capsule Machine is programmed to dispense the correct volume of barista style espresso (35ml), lungo (70ml) or tea (180ml) at the touch of a button.

The programmable dosing memory will help you create your own measure for larger cups or mugs.

- Compatible with Dualit NX Coffee Capsules, Dualit Fine Tea Capsules & Nespresso coffee capsules
- High quality, stainless steel body
- Precise, automatic dose control
- Programmable dosing memory recalls your favourite cup size
- Descale warning light and descale programme
- Removable drip tray with 300ml capacity
- Adjustable cup shelf to accommodate larger cups and mugs
- Auto-start feature; pre-select your dose for automatic dispensing while the machine heats up
