Overview

Beaverswood Racksack Blue Gen Waste Bin

This racksack is made from tough waterproof polyester, the racksack can adequately withstand the rigours of an industrial environment.

The re-usable waste sack helps promote a green and tidy work place suitable for racking systems between 900-1100mm deep.

Available in 14 different standard designs with special prints also available.

Helps to comply with the 2015 waste regulations.

- Easy collection of waste
- Easy to fix, easy to remove
- Helps waste segregation
- Hard-wearing and re-usable
