Overview

Wypall L20 Wipers Large Roll 1000 Sheets per Roll (Blue)

A limited life wiper using double re-creped (DRC) base sheet technology, layered fabric that's strong, thick and highly absorbent so it cleans up fast without falling apart, does the job with fewer wipers and helps reduce costs.

Ideal for: light, precise wiping-up of spills, grime, dust; polishing glass and smooth surfaces; cleaning and drying tools and hands; finally assembly wiping; wiping food preparation areas.

Available as: a large, perforated roll for use in busy areas.

Can be used with a range of mobile or mounted dispensing systems to help control use and reduce wastage.
