Overview

3M Peltor G3000 Safety Helmet ABS Plastic White (Single)

Designed for forestry and industrial applications, this 3M Peltor G3000 Series Safety Helmet has a rounded shape to avoid snagging and a short brim for a wider field of vision.

The helmet lining can also be rotated 180 degrees, ideal when working in confined spaces.

For outdoor workers, the unique Uvicator Sensor Disc highlights when a helmet has degraded due to UV exposure, informing the wearer when it is time to get a replacement helmet for maximum safety.

Designed with comfort in mind, the large number of ventilation holes allow for increased airflow.

Made from UV stabilised ABS plastic, this pack contains 1 orange helmet.

- Safety helmet designed for forestry and industrial workers
- Rounded shape with short brim for a wider field of vision
- Helmet lining rotates 180°
- Uvicator Sensor Disc indicates when a new helmet is required
- High number of ventilation holes
- Made from UV stabilised ABS plastic
- Colour: White
