Overview

3M Basic Protective Coverall Lightweight Breathable Anti-asbestos Large

The 4520 protective coverall from 3M is disposable safety work wear made of lightweight, breathable polypropylene.

It helps provide basic barrier protection against light liquid splashes and hazardous dusts.

Made with a breathable material that helps reduce heat build-up and promote comfortable wear.

Three panel hood design helps provide a more comfortable fit and a sleek, low-profile style.

Elastic waist, ankles, and wrists for convenience and freedom of movement.

Two-way zipper with storm flap for convenience and to help provide additional protection.

Anti-static coating on both sides helps reduce static build-up and prevent the risk of static discharge during use.

Does not contain components made from natural rubber latex to help prevent reactions from users with latex sensitivities or restrictions.

- Coverall 4520
- Ideal for light duty maintenance and asbestos handling
- Breathable back panel
- Knitted cuffs
- Professional lightweight design
