Overview

VFM Metallic Equipment Locker Floor Frame (Silver)

VFM Metallic Silver Equipment Locker Floor Frame 315885.

Designed especially for use with the VFM Equipment Locker 315237, this floor frame has been developed to give added stability to your equipment locker and to ensure extra safety in strong weather such as winds and storms.

It is ideally used for erecting the locker without a foundation or on uneven ground, and it is manufactured from strong aluminium chequered plate, ensuring strength in your locker from the ground upwards..

.
