Overview

VFM Metallic Garden Shed Floor Frame (Silver)

VFM Metallic Silver Garden Shed Floor Frame 332971.

Designed especially for use with the VFM Premier Shed 370780, this floor frame has been developed to give added stability to your shed and to ensure extra safety in strong weather such as winds and storms.

It is ideally used for erecting the shed without a foundation or on uneven ground, and it is manufactured from strong aluminium chequered plate, ensuring strength in your garden shed from the ground upwards..

.

Floor frame gives added stability.

Ideal for erecting the shed without a foundation or on uneven ground.
