

Swann Bullet Thermal CCTV Cameras PK2 SWN11927

SWN11927
SWPRO-3MPMSBPK2-UK

Camera Type : Analogue
Case Colour : White/Black
Day and Night Operation : Yes
Distributor Numbers : Vow Code: SWN11927
Model Name : PRO-3MPMSBPK2
Motion Detection : Yes
Product Family : PRO
Product Type : Thermal Security Camera
Resolution (Maximum) : 2560 x 1920 Pixels

Pack Quantity 1
Price : £99.04

Overview

Swann Bullet Thermal CCTV Cameras PK2 SWN11927

These security cameras feature Swann's True Detect PIR Thermal Sensing technology to reliably detect heat-generating moving objects, such as people, large pets & cars.

With more accurate motion detection you have more reliable notifications & recording, eliminating false triggers such as falling leaves, bugs, rain & more, saving you hard drive space & playback time.

These 3MP Super HD security cameras have 1.5x more pixels than 1080p (2MP) and are the perfect addition to your Swann DVR-4780 Series when you need extra cameras to cover blind spots.

The sturdy aluminum construction is built tough for the outdoors or indoors with IP66 weatherproof rating.

The cameras come with rolls of 60ft (18m) BNC cable for connecting the cameras to the DVR.

See in the dark up to 100ft (30m) with the cameras' powerful infrared night vision.

The cameras' bullet shape makes them more visible for potential intruders, working as a deterrent to protect your property & loved ones.

For a more discreetly shaped camera that blends into its environments, you may also consider its round shape sister, the PRO-3MPMSD dome camera.

True Detect is a step up from the traditional Motion Detection technology.

The camera has a PIR sensor, the same technology used in alarm systems, to detect moving heat-generating objects, such as people, large animals & cars, to trigger recording and alerts.

True Detect eliminates false triggers from traditional Motion Detection, such as leaves falling, small birds & plants moving with the wind.

Use them as outdoor cameras or indoor cameras as they are built tough to withstand whatever the weather throws at them: rain, snow, dust and hot days.

With IP66 weatherproof rating and cables threaded through the stand for extra protection ensure you can rely on their performance, day in, day out.

No matter if it's day or night, you'll be able to see everything up to 100ft (30m) with the powerful infrared Night Vision.

The cameras will automatically switch to Night Vision and record in black and white as the night falls.

- Resolution: 3MP
- Night Vision Distance: 100ft/30m
- PIR Sensor Distance: 32ft/10m
- Viewing Angle: 64°
- Camera Usage: Indoor/Outdoor IP66, Weatherproof
