

Swann DVR8-4780 (3MP) 8 Channel Digital Video Recorder with 2TB Hard Drive and 4 x PRO-3MPMSB Thermal Sensing Cameras (UK) SWN11965

SWN11965
SWDVK-847804-UK

Camera Type : Analogue
Day and Night Operation : Yes
Dimensions : 22.0cm (D) x 5.3cm (H) 27.5cm (W)
Distributor Numbers : Vow Code: SWN11965
Form Factor : Digital Video Recorder
Hard Disk Size : 2048GB , Max. Disk Size Supported
6144GB
Motion Detection : Yes
Product Type : Digital Video Recorder
Video Channels : 8

Pack Quantity 1
Price : £415.97

Overview

Swann DVR8-4780 (3MP) 8 Channel Digital Video Recorder with 2TB Hard Drive and 4 x PRO-3MPMSB Thermal Sensing Cameras (UK) SWN11965

This system features Swann's True Detect PIR Thermal Sensing technology to reliably detect heat-generating moving objects, such as people, large pets & cars.

With more accurate motion detection you have more reliable notifications & recording, eliminating false triggers such as falling leaves, bugs, rain & more, saving you hard drive space & playback time.

Capture amazing detail with 3 Megapixel resolution, which has 52% more pixels than Full HD 1080p (2MP).

Identify faces, license plates and clothing patterns with crystal clear images and enjoy peace of mind 24/7.

This surveillance system comes with a massive 2TB hard drive & 4 weatherproof PRO-3MPMSB security cameras built tough for the outdoors or indoors.

See in the dark up to 100ft (30m) with the camera's powerful infrared night vision.

The cameras come with BNC cables.

If your property has existing BNC cables, we advise you to test your new system for 2 days with the existing cables before full installation.

For optimum performance, we recommend you use the new cables supplied.

Expand your kit by adding up to 4 more cameras for a complete 8 channel surveillance system, suitable for medium-sized businesses & detached homes for monitoring indoors & outdoors.

The HomeSafe Views app ensures you'll always be connected to your home or business, allowing you to see the cameras on your phone or tablet.

You can even search the recordings to play them back, wherever you are in the world.

Keep an eye at home on everything else that matters to you, such as your kids, pets or tradespeople.

If you have a business, you can always see the cashier, warehouse and check in on your staff's safety.

And of course, if anything happens, you'll have video evidence in 3MP Super HD.

True Detect is a step up from the traditional Motion Detection technology.

The camera has a PIR sensor, the same technology used in alarm systems, to detect moving heat-generating objects, such as people, large animals & cars, to trigger recording and alerts.

True Detect eliminates false triggers from traditional Motion Detection, such as leaves falling, small birds & plants moving with the wind.

- Innovative Thermal-Sensing Motion Detection Technology
- QuickShot Cloud saves snapshots to your Dropbox account
- Instantly link your phone to the DVR
- Massive surveillance grade hard drive
- Weatherproof cameras built for any climate
