Overview

3M 4251 Respirator Half Mask Blue (Single)

This ready to use, maintenance free half mask respirator has a low profile design for improved visibility.

Providing comfort and protection against organic vapour and particulate hazards, the lightweight mask is made from a soft, non-allergenic material with a textured face seal.

The centrally positioned valve effectively removes heat and moisture for comfort in use.

With filters to protect against fine dust, and oil and water based mist, this respirator is suitable for chemical processing, paint spraying and resin manufacture applications.

The respirator conforms to EN405:2001+A1:2009.
