Overview

Epson Claria Photo HD 378 (5.5ml) Light Cyan Ink Cartridge

Epson offers standard and extra large (XL) ink cartridges so that you can pick the best value option for your needs.

XL inks are great if you print in high volumes and can help to reduce your printing costs.

With both sizes, the colours are available individually so only the colour used needs to be replaced.

That means less wastage and great value.

Epson inks and papers have been developed to work hand-in-hand with Epson printers to produce the best results time and time again.

Print long-lasting and professional-looking, glossy photos at your convenience with Claria Photo HD Inks.

Both photography enthusiasts and semi-professionals are sure to appreciate the enhanced level of quality produced by its 6-colour inks.

It delivers detailed images and realistic skin tones with smooth tonal gradations and deeper, more natural blacks.

Designed with longevity in mind, the high-quality ink can last for 300 years in a photo album.

Enjoy hassle-free and reliable printing with Epson's genuine inks.

We invest in extensive research, high-tech manufacturing facilities and put our products through rigorous tests, to deliver the best quality product to you.

- Reduce your printing costs
- Optimised for Epson printers
- High-quality photos
- Easily identifiable Squirrel image
