### Overview

---

HP 70 Matte Black/Red Printhead

Print just what you envision.

Then print it again, confident that you will get the same vivid colour, the same quality.

It's no problem using original HP 70 Printheads.

HP Smart technology makes automatic and continuous adjustments to optimize print quality and reliability.

So you get consistently outstanding results that help you avoid rework.

The time you save means faster turnaround times and lower costs of printing.

- Avoid waste and rework that costs time and money. HP reliability means low-maintenance, trouble-free printing that saves you time. So your turnaround time is faster and your costs of printing are lower
- Get simple, problem-free printing with HP 70 printing supplies. HP Smart printing technology makes automatic adjustments to ensure consistent print quality and colour accuracy and provides timely alerts. It's easy to produce museum-quality prints
- You can count on original HP 70 Printheads. Breakthrough HP printhead technology, designed to work with HP Vivera pigment inks, delivers consistent print quality and colour accuracy. Innovative HP Smart printing technology maximizes printhead life
