### Overview

---

Safescan 2250 Banknote Counter with 3-Point Counterfeit Detection

Save time and eliminate all chance of error.

The Safescan 2250's back-loading hopper can hold up to 300 banknotes and accurately count them, up to 1.000 notes per minute.

The 2250 automatically checks every banknote for three distinct security traits: UV markings, magnetic markings and bill size.

It will pause and beep to alert you when it encounters a suspicious bill; simply remove the offender and press start to resume counting.

The spacious backlit LCD screen tells you exactly what you need to know: the number of notes counted and the specific count and detection settings you've selected.

- Fast and reliable banknote counter with 3-point counterfeit detection
- Counts 1.000 notes/minute
- Quick and easy to use
- Auto start and stop function
- For all currencies
- Add and batch function
- Alarm when suspected or different sized banknote is detected
- Intuitive user interface
