Overview

Philips VoiceTracer DVT2510 Digital Recorder (8GB) Built-in Memory Capacity with LCD Colour Display HQ Stereo Low Noise Microphone Hands Free (Anthracite/Chrome)

The Voice Tracer 2510 is perfect for capturing notes, ideas and thoughts on the go.

Thanks to its two microphones, your recordings are captured in outstanding stereo quality.

The large colour display makes recording quick and easy.

The two built-in stereo microphones are designed to deliver clear voice recordings and reduce background noise, even in loud environments.

High-quality recording is essential for clear playback and accurate speech recognition results.

Capture your recordings in MP3.

The popular file format allows you to play back your files virtually anywhere and simply share them with others.

Voice-activated recording is a convenient feature for hands-free recording.

When enabled, recording will start automatically when you begin speaking.

Recording pauses when you stop and resumes automatically when you begin speaking again.

Never miss an important moment.

Simply press and hold the record button to power up the device and start recording instantly, keeping your eyes and mind focused on the moment not the device.

Thanks to Plug and Play in Windows, Mac OS and Linux, you can quickly access your recordings without installing any additional software.

The recorder is automatically displayed as a removable drive once connected to your computer via USB.

It can also be used as a convenient way to store, back up and share files.

The large colour display offers sharp images, making it easier to see and read everything at first glance.

The clear user interface supports eight languages and is optimized for easy, intuitive operation.

Capture and store up to 88 days of continuous recording thanks to the 8 GB of internal memory.

Virtually unlimited recording and storage capacity thanks to a microSD memory card slot supporting up to 32 GB of additional memory.

A time stamp with the date and time is added to every recording, allowing you to easily navigate through your library and find files.

Finding recordings is quick and easy.
