Overview

Philips Voice Tracer DVT 6010 Digital Recorder (8GB) LCD Colour Display 1.77 inches 128 x 160 Screen Frequency Response 50 - 20,000 Hz Hands Free (Black)

Capture lectures and interviews in outstanding sound quality.

The 3Mic AutoZoom+ technology suppresses surrounding noises for crisp and clear recordings.

A motion sensor automatically selects the right microphone for each situation.

The built-in motion sensor detects the recorder when it is placed on a desk or held and selects the microphone sensitivity to suit the recording situation preventing you from accidentally blocking the audio you want to record.

The pre-recording function allows you to record the last five seconds before you press the record key.

The device switches into a standby mode and records a five-second loop without saving it.

Press the record key to save the five-second loop.

This feature allows you to spontaneously record important parts of a conversation.

Capture your recordings in MP3.

The popular file format allows you to play back your files virtually anywhere and simply share them with others.

The large colour display offers sharp images, making it easier to see and read everything at first glance.

The clear user interface supports eight languages and is optimized for easy, intuitive operation.

A time stamp with the date and time is added to every recording, allowing you to easily navigate through your library and find files.

Finding recordings is quick and easy.

- Motion sensor for automatic microphone sensitivity adjustment
- Pre-recording function for never missing a single word
- MP3 recording for clear playback and easy file sharing
- Large colour display for easy and intuitive operation
- Calendar search for quick and easy retrieval of recordings
- Rechargeable li-polymer battery for extra-long recording
- Plug and play in Windows, Mac OS and Linux
- 8 GB internal memory for up to 88 days of recording
- MicroSD memory card slot for virtually unlimited recording
- Robust metal design for extra durability
- Voice-activation for hands-free recording
