### Overview

---

Samsung HE470 (48 inch) Full HD Smart LED Hospitality Display (Black)

With new opportunities to supply guests with engaging and informative content, hospitality displays can foster a differentiated and memorable in-room experience.

Samsung's slim-designed HE470 displays serve as an all-in-one content centre where hotel managers can access a vast user interface template library to create and share customised welcome greetings and on-site and area promotional messaging.

The HE470 display features Samsung's LYNK REACH 4.0 communications and content management solution, offering operations teams a more complete view and easier control of hundreds of in-room displays.

System Integrator compatibility and USB cloning empower multi-device management with reduced installation and maintenance required.

Highly functional, elegant and cost-efficient, the HE470 inspires a more lavish and comfortable stay while driving more efficient hospitality operations.

- Access and enjoy a variety of content
- Offer guests an experience that's tailored to them
- Deliver information to guests with Welcome Video Channels
- Give guests access to real-time information
