Overview

Samsung HE590 (40 inch) Full HD Smart LED Hospitality Display (Black)

As hotels seek new ways to create a differentiated guest experience, versatile displays can deliver functionalities that improve operational efficiency while delivering a comfortable at-home feel.

Samsung's HE590 hospitality display elevates the traditional in-room TV into a multi-purpose entertainment centre that engages guests through a range of content while also adding ambience through a sleek, stylish design.

Through integrated IP-based connectivity, hotel guests can access their favourite programming, along with mobile device-store personal content such as music and photos, and display desired content on the HE590 screen.

Hotel operators additionally receive content delivery flexibility, as they can use Samsung's LYNK REACH 4.0 solution to create and deploy custom welcome messages, promotional offers and local attraction information to specific rooms.

With Samsung's HE590 display, hotels can foster a memorable guest experience with less maintenance, labour and costs required.

- Access and enjoy a variety of content
- Experience a streamlined and modern design
- Deliver information to guests with Welcome Video Channels
- Improve communication and personalise guest experience
