Overview

VARTA 1.5V High Energy AAA Battery (Pack of 12)

High Energy is the most powerful of all VARTA batteries.

It was developed especially for power-hungry devices, e.

g.

toys, audio equipments, LED flashlights and computer devices.

Thanks to our Single Press Out solution you can remove each battery separately and distinguish new cells from already used ones.

- Powerful energy for power-hungry devices, e.g. computer devices, audio equipments, toys etc
- Clear communication of recommended use by way of pictograms
- Made in Germany as the proof of origin on the blister front of the most important product types
- Single Press Out enables easy opening of the pack and good storage for unused batteries
