Overview

Aurora DT900 Desktop Calculator Large 12 Digit Display

The Aurora DT900 is a quality desk calculator with a large 12 digit LCD display.

Launching in Q4 2017 the calculator has a new design and attractive grey and white colouring with keys made from durable hard plastic and rubber feet for desk stability.

Business functions include: Programmable currency conversion to easily convert between two user defined currencies and Tax keys ideal for one touch VAT calculations.

With a host of useful keys and dual powered operation the DT900 will be an excellent all round office calculator.

- Large clear 12 digit display
- Currency Conversion Function
- Tax function ideal for VAT
- 3 Key memory
- Dual powered
