Overview

Casio FX-CG50 Graphic Calculator 3D Graph Catalogue Function (Black)

The fx-CG50 brings maths to life with the next generation of graphic calculator technologies; including high-resolution colour display with natural textbook display, innovative picture plot function enabling analysis of images and video, and an extensive range of graphic functions.

The fx-CG50 has all the functionality of the fx-CG20 with the addition of 3D graphs.

- High-resolution colour display with over 65,000 colours
- Innovative image plot application for photo and video analysis
- 7 colours can be used in various applications
- Solve equations with integral, differential and probability functions
- Solve over determined and under determined equations
