Overview

Brother QL-700 Thermal Address Label Printer BA70429

Offering versatility, convenience and Microsoft integration, the QL-700 delivers totally hassle-free address label printing.

'P-Touch Editor Lite' is pre-loaded to the printer itself so there's no software installation required for PC or Mac.

And it's fast, producing up to 93 labels a minute at up to 600dpi, with an automatic label cutter built in for ultimate convenience.

You can also print directly from MS Word, Excel and Outlook too.

With the QL-700, your envelopes and packages can carry clear, professional-looking labels - you can even add your company logo if you'd like.

- USB, serial and wireless connectivity
- Easy to use - print labels without installing drivers using the built-in P-touch Editor Lite label design software
- Fast - print up to 93 labels per minute (standard address labels)
- Versatile - print labels up to 62mm wide and signs up to 1m long
- High quality - up to 300 x 600 dpi print resolution
- Includes 2 DK starter label rolls
