

MakerBot (Large) 1.75mm PLA 3D Printing Filament (Neon Orange) MBT01148

MBT01148
MP06050

Dimensions : 25.0cm (W) - Weight 0.9kg
Distributor Numbers : Vow Code: MBT01148
In The Box : 1 x MakerBot (Large) 1.75mm PLA 3D
Printing Filament
Pack Quantity : Total 1 Piece(s)
Product Type : Printing Filament

Pack Quantity 1
Price : £68.63

Overview

MakerBot (Large) 1.75mm PLA 3D Printing Filament (Neon Orange)

Every filament colour is comprehensively quality tested at both 100-micron and 200-micron layer resolutions on the MakerBot Replicator 2 to verify that the filament will perform every feature that MakerBot Desktop software offers.

If you're new to 3D printing, MakerBot PLA Filament is a good material to start with because it's easy to use and performs well on most prints.

MakerBot PLA Filament adheres well to acrylic and to MakerBot Build Plate Tape.

Prints with a large bottom layer may have a tendency to curl.

To prevent curling, use rafts.

Store MakerBot PLA Filament in a cool, dry place as it can absorb moisture from the air and long-term exposure to humidity can compromise filament quality and performances.

Be sure your build plate is level, clean and oil-free before printing.

- PLA Filament
- 1.75mm Filament Diameter
- Large Spool
