Overview

Canon Pixma TS5050 Printer

High-quality colour printing from the comfort of your own home, with scan and copy functions, Wi-Fi, cloud connectivity and an easy-to-use 7.5 cm (3') LCD display - all contained within a compact, space-saving body.

Print beautiful photographs and crisp text - over USB cable, Wi-Fi or directly from your SD cards.

Canon's FINE inkjet print technology and 5 single inks bring convenience, cost savings and great-looking prints.

Experience a lean, space-saving form factor 40% smaller than previous equivalent models.

Clever contrasting textures, rounded corners and tapering contours make the printer's already-small frame appear even smaller.

A superb printer inside and out - and an elegant addition to any desk or home office.

Built-in Wi-Fi means you can print from your smartphone, tablet or computer via support for Mopria for Android, Apple AirPrint, Google Cloud Print, Windows 10 Mobile and the Canon PRINT app.

Print your photos directly from Wi-Fi-enabled cameras, or using the built-in SD card slot.

Every function is within easy reach with the manually adjustable front panel, 7.5 cm (3') LCD display and simple interface.

The clear, simple buttons mean quick access to the printer's primary functions, whether printing, copying or scanning.

Running costs won't break the bank, thanks to the optional high-capacity Canon XL ink cartridges, letting you save as much as 30% per page compared to standard equivalents.

The 5 single ink cartridges mean you'll only need to replace the colour that has run out.

- Print beautiful photographs and crisp text - over USB cable, Wi-Fi or directly from your SD cards
- Large, clear display
- Using PIXMA Cloud Link, accessed through the Canon PRINT app on your smartphone or tablet, you can print from popular social network services
- Easy to use 7.5cm LCD display
