Overview

Dymo LabelWriter Print Server

LabelWriter Print Server allows you to share your LabelWriter printers with your co-workers, connect any LabelWriter 400 or 450 series printer to your network and maximize your LabelWriter label printer usage.

Easy set up - just plug in the power supply, connect to a network jack and your LabelWriter printer, and install the software on a single workstation.

No extra cables required.

- Share your LabelWriter printers with your office
- Connects everyone on your shared computer network to any LabelWriter 400 or 450 series label printers
- Simple connection by connecting the print server to your LabelWriter printer (USB) and the network (Ethernet)
- Maximises usage and benefits
- WxDxH: 80x60x23mm
- Weight: 0.6kg
