Mono or Colour Printer : Mono
Network Ready : Yes
Product Family : MFC Series
Product Type : Multifunction Laser Printer
Speed Monochrome : 40ppm

Pack Quantity 1
Price : £219.44

Overview

Brother MFC-L5700DN (A4) Mono Multifunction Laser Printer (Print/Copy/Scan/Fax) 512MB 40ppm (Black)

MFCL5700DN is a cost efficient, monochrome laser Multi-Function Centre for your busy office or business.

It combines high-speed, reliable printing and copying up to 40ppm, high-quality colour scanning, and faxing into one durable design.

Share with others on your network via its built-in Ethernet or print from your mobile device via: AirPrint, Google Cloud Print and Brother iPrint&Scan

Plus, the MFCL5700DN can print on both sides of the paper using the automatic 2-sided feature and scan or copy bound materials via the legal-size document glass or multi-page documents using the 50-page capacity auto document feeder.

The Automatic Document Feeder (ADF) allows unattended scanning, copying and faxing of multi-page documents quickly and easily, complementing our MFC's stack and sort capabilities for added convenience.

Reduce paper and toner wastage with Brother's duplex (two-sided) printing and optional high-yield toner cartridges which effectively reduce total operating costs and lower your overall cost per print.

Plus, easily produce 2-up and 4-up on a single sheet.

This saves paper when viewing drafts or layouts.

Featuring print speeds ranging of 40ppm, higher print speeds save time for multiple users and on large volume printing tasks.

Users can utilise their time more efficiently instead of waiting for their printouts.

The direct print feature enables users to print files such as PDF, JPEG, TIFF or printer-ready documents without even using your computer! The PC Fax receiving function boasts a junk fax filter that eliminates the

printing of unnecessary faxes by scanning documents directly to your computer instead of printing them out indiscriminately, thereby cutting down on paper and toner wastage.

With the free iPrint&Scanapp, you can now print directly from your mobile device.

You can print directly from your Apple devices without any applications.

Simply access your document and print via iOS built in function, AirPrint.

Brother's Apps: An ever-evolving range of applications that adds greater flexibility, productivity and efficiency to the way you work.

- Print/Scan/Copy/Fax/ Network
- Secure Print/Cloud Print
