Overview

Adonit Pixel Stylus Pen for iPad/iPhone

As our most advanced iPad stylus, the Pixel offers unparalleled precision, increased tip drag, and pressure sensitivity for natural writing and drawing across all the latest iPad models.

The Pixel's improved 1.9mm tip creates a paper-like drag that's more precise and responsive than ever before.

The Pixel is a pressure sensitive stylus with 2048 levels of sensitivity.

Now, you can create nuanced strokes of varying width and weight like an ink pen or brush.

Programmable shortcut buttons give you easy, one-touch access to your most used tools like erase, redo, and scroll to zoom.

The Pixel's brushed aluminum body and sleek, ergonomic design define its aesthetic as an iconic multimedia tool.

Pixel is as pleasing to the eye as it is to the hand.

The built in grip sensor activates Pixel when you pick it up after it has first been turned on.

Now, there's no more waiting, Pixel is always ready when you are.

- Improved performance and precision
- Pressure sensitive
- Palm rejection
- Shortcut buttons
